COMPUTER SCIENCE

I am currently looking for part-time or an internship position to apply my computer science skills, as well as my skills in leadership and communication that I earned from leadership programs done throughout high school and university.

EDUCATION

Bachelor of Science | 2018 | Victoria University of Wellington

- Major: Computer Science
- Minor: Computer Graphics
- Related coursework: Statistics, online programming courses such as Android development and machine learning

PROGRAMMING SKILLS

Java

- Most confident language; learned and mastered through university courses, as well as through online courses such as Udemy; Have made multiple projects purely in Java, including a dungeon crawler game done through university.

Android Development

- Very confident; learned primarily through Udemy courses, alongside university and various other online resources; Have made multiple Android applications, both large and small-scale.

Python

- Confident; Self-taught; have taken 3 different Udemy courses on python to solidify my understanding; relatively confident in many machine/deep learning frameworks such as TensorFlow, scikit-learn, NumPy, pandas, and Keras

HTML/CSS

- Fairly Confident; learned through Udemy courses as well as various online resources; have done some web development projects, biggest of all being my online portfolio.

JavaScript

- Fairly confident; learned alongside HTML/CSS. Mostly know frontend JavaScript such as jQuery, in process of learning backend frameworks such as Node.

Git

- Very confident; use in all aspects of programming in order to maintain and practice a professional workflow.

PROJECTS

FlatMate

- Solo side project; Android application intended to efficiently create a fair distribution of tasks that need to be done around a flat.

DeathKrawl

- Group project done in university; a Java-based dungeon crawler game in which a number of various design patterns are implemented.

HarrisonBacordo.com

- Online portfolio I worked on over the summer of 2017-18.

OTHER WORK/VOLUNTEER EXPERIENCE

Sales Advisor | Kathmandu| July 2016 – present

- I have worked at Kathmandu from July 2016 to present. This job has taught me the importance of customer service and multitasking with efficiency in a dynamic environment. The work I did consisted primarily of helping customers make informed purchases on outdoor gear, restocking the store floor, and working tills.

Crew Member | Chipotle Mexican Grill | December 2014 – August 2015

- I worked at Chipotle from December 2014 until August 2015 as a crew member working the grills. The job not only taught me how to prep and cook fresh food from scratch, it more importantly showed me the tremendous effect that teamwork and communication can have on maintaining a consistently bustling restaurant. This job also helped me greatly in working under pressure. I left in August 2015 to go back to university and eventually move to New Zealand to further my education.
-

Work Crew Member | Young Life | July 2013 – August 2013

- I volunteered for a Young Life summer camp from July 2013 to end of August 2013. I was a part of the dish-washing crew, working from the beginning of breakfast until the end of dinner. I also helped new campers move their bags from the bus to their cabins.
